

Student Council

Monday 16 April 2018

a) Teaching & Learning (including Feedback & Assessment)

- Could seating plans be kept consistent?
- More practicals in Science - Mr Palmer is good at it
- When feedback is there in books, it is understandable and the teachers help if not.
- I get feedback in most lessons.
- Teachers are helpful and kind.
- Teacher challenges are helpful.
- Homework is frequent.
- The feedback I get tells me what to improve on.
- I think we should peer assess each others work more.
- Check uniform, makeup, shoes and more in tutor time.
- Make sure all students understand the content and know what they are doing.
- In English with Mr Bennett the new mark scheme is being used and working well. He controls the class and if needed the positive discipline is used in the correct manor.
- Mrs Curtis' lessons we learn a lot.
- Some teachers aren't setting challenges enough.
- More revision lessons for Year 10.
- Homework should be optional.

b) Personal Development, Behaviour & Welfare

- Inform us about Careers earlier; perhaps have interviews every 6 weeks?
- Negative system for equipment?
- Lose 5 minutes of social time for littering.
- More career days - they are really good.
- CCTV on the field so that people who litter can face a small punishments.
- Teachers are generally supportive.
- We have to choose options next year - taster lessons in year 8 for the different subjects would be useful.
- Have a special website with log in that tells you what qualifications you need for certain jobs and how much you are paid.
- More focused on student's wellbeing and emotional side.
- Behaviour is certainly improving.

- The school's central polls should be student's welfare and development. Stuff should continually and consistently encourage students to do more, work harder and let a real world attitude into the lessons.
- Get rid of Isolations.
- Dedicated career portal room.
- Apparatus on the field (Outdoor play area).

AOB:

- Batteries for Mr Bennett! For his remote control.
- No more assemblies in the Barn/Gym please.
- Allow us to take off blazers in assemblies (it gets very warm).
- More bins.
- More places to sit.
- Extra activities at lunchtime.
