

The start of year 11 sees you enter your examination year. Having officially now covered the whole course, this year is dedicated to recovering and revising any areas in which you feel you need to. This will be informed by numerous assessments throughout the year, which will give us an indication of your progress as well as areas needed to improve on.

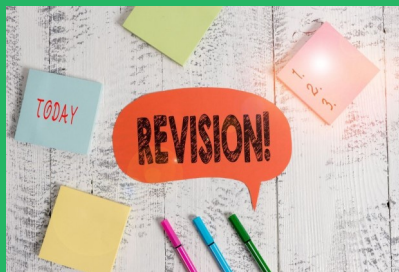

See below for more details

# Year 11 Computer Science

## Term 3: Exam Revision

You will:

- Have the chance to revise any last areas you feel you need to
- Practise your exam technique

## Term 1:

### Data representation and Unit 1 recap

You will:

- Recap how images, sound and text are represented on a computer
- Recap compression and sound sampling
- Recap key areas of unit 1, including CPU, memory and storage
- Sit a mock assessment

## Term 2: Unit 1 and 2 recap

You will:

- Recover key areas of both unit 1 and 2, based on our analysis of your mock assessment
- Sit a mock assessment
