

ABOUT ME

My name is April.
I used to go to Headlands and now I'm a recruitment consultant.

ABOUT MY JOB

My role in recruitment involves managing the temporary desk in our Leeds office. My major client is a large banking organisation, however, I deal with clients across various sectors including healthcare, finance and education.

I assist job seekers in finding work in office-based roles such as administration, customer service, secretarial and sales.

As a consultant, I follow the recruitment process with my clients and candidates from start to finish, from initial face-to-face meetings with potential clients and sourcing candidates from job boards to interview preparation and job offers.

I also solely manage the social media accounts including Twitter and Facebook, I have run several successful campaigns and competitions and continue to find new ways to increase our online presence.

SCHOOL RESULTS

I left Headlands School in 2010 with 9 Bs and 2 Cs at GCSE and grades A,C and C in my A-Levels.

FAVOURITE MEMORIES

My favourite subject during A Levels was Media Studies, which inspired my degree choice.

I have nothing but great memories of my time at Headlands.

WHAT I DID NEXT

I studied Marketing and Advertising Management at Leeds Metropolitan University.

I am also due to start a Digital Marketing Degree in January 2021.

MY ADVICE TO STUDENTS

The best decision I ever made was to leave town for university and to do this you need to work hard and get the grades.

From leaving school in 2010, I moved straight to Leeds and have subsequently had the most amazing university experience, had a successful seven-year career with a well respected company, met friends for life, met and married my husband, purchased my first home and am due to have our first child.

None of this would have been possible without the hard work I put in at school to give me that opportunity to move away.
