

ABOUT ME

My name is Callum.
I used to go to Headlands and now I am an accountant.

ABOUT MY JOB

Working alongside experienced members of staff on a daily basis at Lloyd Dowson, I am responsible for looking after clients records and queries, working out what tax needs to be paid, software training, visiting clients for audits all across the UK and helping other junior members of staff accomplish tasks.

No two days are the same!

I am now only a few exams away from finishing my training. It's a great way to start a career as things I learn in my studies help me at work and jobs at work help me with my studies so it's a win-win situation.

SCHOOL RESULTS

I left Headlands in 2017 with 11 GCSEs at grades 11 A*-C and A*, A and D at A-Level, options mainly focusing on IT and Maths.

FAVOURITE MEMORIES

The school productions were my all-time favourite, getting involved with Our House, Little Shop of Horrors and Grease was amazing.

I enjoyed the ability to share my love for music and performing.

WHAT I DID NEXT

After finishing my studies, I did work experience at Lloyd Dowson which was very beneficial.

I became enrolled onto the AAT college course at the East Riding College. I was offered a job/studying career at Lloyd Dowson.

MY ADVICE TO STUDENTS

University is not always the best route for everyone, keep your options open as there may be other opportunities to grasp closer to home.

Sometimes to get a broader picture of availability in careers you need to look locally. There are many local businesses in the area who offer good career prospects.
