

ABOUT ME

My name is Ben.

I used to go to Headlands and now I am a presenter and reporter for Manchester United and MUTV.

ABOUT MY JOB

My main role at Manchester United involves reporting on live academy and women's games, recording team news and interviewing both managers and players, before and after the game.

As well as reporting, I have started presenting midweek programmes that go out on the channel, as well as the official Manchester United App.

I have the pleasure of working with footballing legends such as Bryan Robson, Denis Irwin, Dion Dublin and Wes Brown along with other fantastic talent on a weekly basis.

SCHOOL RESULTS

I scraped into Headlands Sixth Form with five GCSEs and studied Media (Distinction), IT (Distinction) and English Language and Literature (C). I left in 2017.

FAVOURITE MEMORIES

I have many memories from the tutor group me and my friends were put into in Year 7 to the huge football games we would play on the school field at break time, lunch-time and after school.

WHAT I DID NEXT

After leaving sixth form, I had already accepted an unconditional offer from the University of Salford to study Broadcast Journalism and graduated with a 2:1.

I am now studying for a Masters in Sports Journalism alongside the NCTJ Qualification in MediaCity.

MY ADVICE TO STUDENTS

Get out there, there is a massive world and you are all privileged to be able to explore it.

It's hard and you may find it a real challenge but nothing good in life comes easy.

Be kind and treat people how you would want to be treated.
