

ABOUT ME

My name is Elliot.

I used to go to Headlands and now I am a PE teacher.

MY LOVE OF SPORT

From a very young age, I have always had a strong passion and interest in sport. This continued to develop through-out my time at Headlands.

The energy, passion and motivation shown through the delivery of teaching facilitated my desire to teach the next generation and assisted my thinking to choose BTEC PE as an examination subject.

Although the work was demanding, it was a thoroughly enjoyable experience learning about a variety of topics, from being educated on the human body, to learning about the fitness components required to master certain sports. The PE team's knowledge and expertise was immensely beneficial throughout these learning years, helping me achieve a Distinction*.

During my time at university, I was also the All Stars Cricket Lead Activator for Bridlington Cricket Club and I also worked alongside the ECB, delivering cricket in over 40 primary and secondary schools.

SCHOOL RESULTS

I left Headlands in 2015 with a Distinction* in BTEC PE.

FAVOURITE MEMORIES

I really enjoyed going on any football and cricket fixtures and as part of our course we did a walk where we stayed for two nights on a campsite, cooked our own meals and had to get up really early to get the miles in for the next day. It was fun spending time out of the classroom and getting to see the countryside.

WHAT I DID NEXT

I went to York St John University where I completed a BA (Hons) Physical Education & Youth Sport with a 2:1 classification and then went on to complete my teacher training with a PGCE.

MY ADVICE TO STUDENTS

Get work experience in any area you are interested in.
