

ABOUT ME

My name is John.
I used to go to Headlands and now I work for the Yorkshire Cricket Board.

ABOUT MY JOB

I currently work for Yorkshire Cricket Board as a Club and Community Development Manager for East Yorkshire which involves managing three members of staff and assisting over 80 cricket clubs across the East Yorkshire and Hull area.

After College, I went to the University of Worcester to study Cricket Coaching & Exercise Science from 2013 to 2016, achieving a 2:1.

During my time at Worcester I worked for the county cricket club in various roles from women's senior coach to school delivery coordinator. Further to this, I became the chairman of the cricket society across the university leading them to a BUCS final in my finishing year.

After my undergraduate course I decided to do a Masters in Sport Coaching gaining merit grade.

SCHOOL RESULTS

I left Headlands in 2011 with eight GCSEs ranging from A to C.

FAVOURITE MEMORIES

I was never the best behaved child at school and was in trouble frequently, however, I look back with great memories of the Sportsman's Dinner, going to Milan on a football trip and days out for any sports event.

WHAT I DID NEXT

After leaving Headlands, I attended an open day at East Riding College as I was unsure on what was next. Luckily, I chose to do full time sport course in BTEC Level 3 Extended Diploma in Sport.

MY ADVICE TO STUDENTS

Enjoy it as much as you can, don't be afraid to be yourself. Trust the system of education and listen to teachers as they help.

There will be days that will be tough, however they can get easier by the hard work you put in.

Don't be influenced by school friends, as when you get older you will make new ones.
