

ABOUT ME

My name is Joe.
I used to go to Headlands and now I am a tax advisor.

MY LOVE OF SPORT

Since I joined Lloyd Dowson, I have been involved in preparing annual tax returns, communicating and answering queries clients may have.

I have also worked in different departments such as payroll and audit to further my knowledge and understanding.

I am currently studying for the Association Tax Technicians (ATT) qualification alongside working. This has been funded by Lloyd Dowson.

SCHOOL RESULTS

I left Headlands in 2019 with 10 GCSEs at grades A* to C and C, C and D at A-Level in Biology, Business Studies and Physics.

FAVOURITE MEMORIES

The school football team was great to play football with friends, and against other local school teams.

We even went to Italy for a school trip.

WHAT I DID NEXT

During my A level studies, I took part in work experience which helped me to understand what the business was like.

Once I finished my studies I went back for further experience and was offered a job.

MY ADVICE TO STUDENTS

Do what you enjoy the most, if you enjoy something you are more likely to put effort and time into it.
Keep your options open, university isn't just the only path to success and a professional career.
