FRIDAY 10 JUNE 2022

Headteacher's message

This week we hosted our first Academy Consultation Evening at Bridlington School. Thank you to all the parents / carers who attended the event and asked probing, pertinent questions. Once we have undertaken all three of our Consultation Events we will update our "Frequently Asked Questions" document and re-post on the School website. We will also place on the website the presentation that has been delivered.

Our Year 11 and Year 13 students are now well into their examination period. They have continued to show dedication and commitment to their studies. Behind the scenes the teaching and associate staffing teams have also continued to make sure all our students' anxieties around their exams are also met and the students are therefore in the best possible position to undertake their examinations. The end is in

sight - just another two weeks to go!

This term is always a very busy one with examinations alongside Year 6 transition days, visits to primary schools, work experience, sports days and extracurricular activities galore! Watch this space for updates as we go through this term.

Take care,
Mrs Bone

Sports

The under 13 Cricket squad have been in action today at Pickering Cricket Club in a Yorkshire Cup match against Lady Lumleys School. Great to see students taking up the sport this year!

Huge congratulations to Owen Grainger who has been selected to represent Northern Ireland in the U16 National training camp. Travel and training will take place from Thursday 16th - Sunday 19th June 2022 in Belfast.

Seacrow and Plastic Paradise

A Plastic Paradise,
2022,
A plastic and mixed media installation,
Made by Art Club.

Art club were set the challenge to follow on from the "Artist of the earth" topic taught in year 7 and asked to build an installation that highlighted the problem of plastic pollution.

After hearing from Matt Barnes, a Marine conservationist that visited school, that this is an issue for our local seals we decided that we would take this message further with our art.

Besides the main structure everything has been made from repurposed items that would ordinarily have gone into the bin. It is a commentary on waste and trying to promote more mindfulness of the impact of using single use plastics.

It was a whole team effort across KS3 students and it has been months in the making. Students have all voted on things such as the design, composition and colour schemes and worked seamlessly as a team. - Miss Ward

**And a huge
congratulations to
Art Club for coming
3rd place in the
Jubilee Seacrow Trail!
Well done team!**
