FRIDAY 15 JULY 2022

Headteacher's message

This is the last "Headlands Headlines" of the academic year 2021 - 2022 and what a year it has been!

Last week we had the absolute privilege of hosting our Year 11 Ball and it was truly amazing to see all our students so happy and enjoying their evening. What was also noticeable was just the sheer number of students who came! It was certainly our biggest Ball in over 10 years! Look out for photographs from the event in the Bridlington Echo.

Coming up next week we have another big event in our annual Sports Day which the Sports Team have been planning for all year. It is set to be a super day and we will all look forward to our students taking part in a real range of activities. Fingers crossed the weather stays good!

In terms of the weather, just a reminder our Summer School Uniform Policy does include the offer of wearing black tailored shorts.

Finally, we will say "Goodbye" to three members of the

Headlands School team next week. Mr Bone has secured a new position at Hymers College in Hull, Mr Cullen is off to the Middle East to continue teaching Science and Mrs Allott is due to retire after many many years of service to the children of Headlands School. We wish them all health and happiness.

Have a good summer,

Best wishes

Mrs Bone

Year 7 Rounders vs Bridlington School

Geogra-fun!

Year 7 geographers are currently completing summer microclimate fieldwork!

They have been looking at different areas around School and how different factors affect the microclimate, to decide a suitable picnic area.

Year 7 students have been collecting primary data and using this to work as a team to write up their data collection and make conclusions about their findings.

Well done Year 7 on a fantastic first year of geography at Headlands School.

- Mrs Malarkey.

Year 7 English

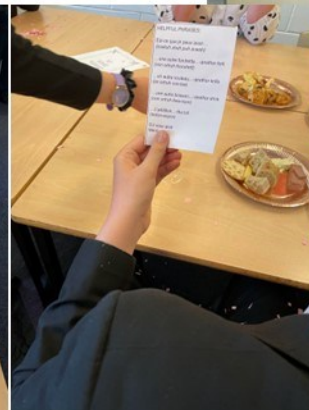

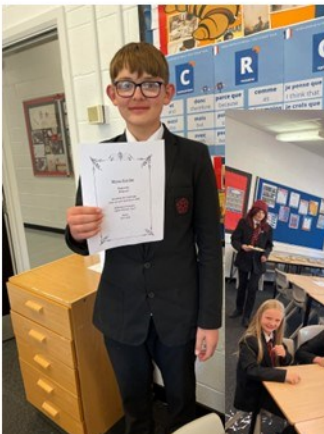

Miss Di Placido's Year 7 class are pretending to be Police detectives to uncover the most guilty character from Noughts and Crosses that they have read. They are in groups making Police pinboards that will be presented to the class in the final week.

Bistro Soixante Quatre

5 Star review would visit again! Wednesday saw the opening of "Bistro Soixante Quatre" run by our amazing French students in 8X3. They treated our amazing customers to some quintessential French foods, showed off their amazing speaking skills and entertained and delighted all who visited. There were a few shocks and surprises as things weren't what they appeared. A memorable experience for all! Merci mille fois!

- Madame Collinson

Year 7 Bridge building competition

The Year 7's got competitive this week, focusing on their engineering skills and the theory of bridge design, we did some bridge making competitions to see who could build a bridge that could hold the most weight! Well done Year 7 for some super teamwork and enthusiasm! - Miss Spiers

Year 8 Graduation Ceremony!

This week saw members of the Brilliant Club in Year 8 celebrate their achievements with an online graduation ceremony with the University of Bath. Over the last term they have attended seminars with a university lecturer to study a project titled "music with a message". They have studied how American music can contribute to our understanding of American history, most of the songs we had already heard but not thought much about including Aretha Franklin – "Respect", Marvin Gaye – "What's Going On" and Bruce Springsteen – "Born in the U.S.A.". We are incredibly proud of our students, they worked independently to produce a piece of writing 2000 words long (no mean feat!) that would be graded on a university level standard. All of our students graded and many achieved a first class rating, "a piece of writing with a quality higher than what would be expected at A level" to quote some of the excellent feedback. What a fantastic achievement!

Bastille Day

Thursday 14th July was a very busy day for our MFL department. In order to celebrate Bastille Day, the department visited numerous local primary schools to talk about the history of the day and the celebrations that take place. Miss Hutchinson visited Burlington Junior School, Bempton Primary School and Flamborough Primary school. Mrs Hewitt visited Quay Academy and Mrs Collinson visited Our Lady and St. Peters. The students enjoyed learning new French vocabulary and creating postcards about the special day!
