## Headlands Headlines

### Message from Mrs Stamford

Last night I had the pleasure of accompanying our Sixth Form students to a well deserved break from revision at Big Fun! Who knew some slides and tunnels could bring so much fun for a group of 17/18 year olds! The trip definitely brought out their inner child and was a great way to release some energy and stresses of the A - Level pressures. This includes our Director of Sixth Form Mr Harah who released his inhibitions to free fall on the

vertical slide - he is still shaking and somewhat struggling to walk this morning!!

This week Year 11 have taken part in an interform quiz "Crunch Time" to prepare and revise for their GCSEs - congratulations to Mr Murray's form for winning the quiz!

Next week we return on Tuesday 7 May due to the bank holiday. A reminder that

our Year 11 and 13 Timetables change to provide a revision timetable to cater for students' needs as they sit their exams. We wish all of our students the best of luck through the exam period. We know how hard they have worked to prepare for this important stage in their lives.

Mrs Stamford  
Head of School

### Mrs Bone's Newsflash

Visit to meet the King. Yes, you have read that correctly! Next week Mrs Stamford and I will be in London attending a Garden Party at Buckingham Palace at the invitation of His Majesty King Charles III.

To be invited to such an event is a real privilege and we are truly proud to be there representing Headlands

School and the Bridlington community we serve. We will do our best to take lots of photographs to share on our return! We will also report back on this once in a lifetime experience next week.

Next week also sees the start of the exam season. How time has flown! May I take this opportunity to wish all our Year 11's and Year 13's all

the best in their forthcoming exams and trust they will achieve the grades they need to go onto their next step in their education and / or career journey. Good luck everyone!

Enjoy the long weekend,  
Mrs Bone  
Executive Headteacher

### Duke of Edinburgh

Students from Year 9 and 10 have been learning about navigation, map skills, route planning, cooking outdoors, First Aid and the Countryside Code in after school sessions with Mrs Malarkey and Mrs Fox-Lawson since the start of this academic year.

Thursday was their first opportunity to put into practice the skills they have learnt on their first practice walk with Mrs Malarkey and Mr Hoults. This will put them in good stead for their expedition next month.

For most students this was their first time carrying full expedition equipment and they all took it in their stride. Well done to all students involved!
