

During this course students will explore the rights of individuals, person-centred values, effective communication and how to protect individuals in health and social care settings. They will also develop learning and practical skills that can be applied to real life situations. They will develop independence and confidence using skills that will be relevant to the health and social care sector.

## Health and Social Care

### Term 3:

This term will give students the opportunity to improve their set assignments before sending them to the exam board. After this they will start of the first topic for their examined unit.

This unit is assessed by an exam. In this unit you will learn about the key topics that are important when caring for and protecting people in health and social care.

Topic Area 1 The rights of service users in health and social care settings

**Term 1:** This unit is assessed by a Set Assignment. In this unit you will learn about growth and development through the life stages. You will also learn how to understand the needs of individuals who have been affected by life events and how to recommend support to meet their needs.

Topics include:

- o Topic Area 1 Life stages
- o Topic Area 2 Impacts of life events
- o Topic Area 3 Sources of support

### Term 2:

This unit is assessed by a Set Assignment. In this unit you will research health promotion campaigns and learn about their benefits to society. You will also plan and deliver your own health promotion campaign.

Topics include:

- o Topic Area 1 Current public health issues and the impact on society
- o Topic Area 2 Factors influencing health
- o Topic Area 3 Plan and create a health promotion campaign
- o Topic Area 4 Deliver and evaluate a health promotion campaign
