

Message from Mrs Stamford

As the term draws to an end, we have had a super busy week with so many great opportunities for our students.

We have had a fantastic week of Geography Beach Trips!!

Nearly 300 Headlands School students have been out on exciting fieldwork opportunities this week, Year 12, Year 10 and Year 9 Geography students have all been out on Coastal Fieldwork Trips. It was fabulous to get some fresh sea air, get some steps in and see coastal processes and nature in the local area. Thankfully we had some lovely weather but unfortunately for the students that didn't come with fish and chips!

Year 9 have completed Ecosystems Fieldwork to enrich their ecosystems topic from this half term. This has been a great success with students using their work booklets to collect data on deciduous forests and rockpools. We even found some fossils and sea creatures.

Year 12 and Year 10 Geography students have used various equipment to collect a range of qualitative and quantitative data for their statutory GCSE and A level fieldwork studies.

Well done to all students involved.

This week Miss Matthews and Mrs Adamson arranged a trip for Year 8 to Leeds to take part in the Next Gen Leaders event. Students attended workshops on how to have a positive impact in their communities which our students are excited about bringing back to Bridlington.

On Wednesday we held our annual future chef's competition and a huge congratulations to Jak Stead and Maelys Price for their fantastic dishes. They now go through to Hull College to compete against other budding chefs with a chance to reach the final in Sheffield. Good luck to both of our students!

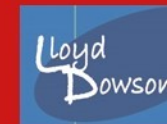

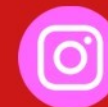

Our students have also taken part in Restart a Heart this week where students from Years 7-13 have learnt valuable skills in ensuring CPR keeps oxygen moving to vital organs for anyone experiencing cardiac arrest. A huge well done to all of our students who took part in this. It is an emotional event for some and our students did an excellent job with their focus, concentration and determination to gain these vital skills in life.

On Thursday Mr Woolley led our first parental webinar to give parents an insight into teaching and learning at Headlands School, the research and methodology this is grounded in. We hope you found this informative. It is now available to view on the school website.

A reminder that school ends for half term on Thursday 24th October at 2.45pm

Have a lovely break and we look forward to seeing all mainstream students back on November 4th and ARC students back on the 5th November following their review day.

Mrs Stamford,
Head of School

HEADLANDS HEADLINES

Mrs Bone's Newsflash

During Assembly this week I have focused on Student Safety in the Community during Halloween and Bonfire Night "season."

In particular I have made a strong suggestion to students that they take home an idea we have adopted on my estate to ensure everyone feels safe in their homes during the next few weeks.

The idea is this - if on Halloween houses have lit pumpkins / lights outside their homes - "permission" to knock for a treat is granted. However if homes do not have lit pumpkins or lights, you don't knock. This ensures that those who want to participate

can, and those that don't can have a quiet, uninterrupted evening. This idea has worked really well on the estate I live on - I would suggest it is definitely worth a conversation with your neighbours if this is something you think would work in your area.

I have also reminded students to be "seen" in the coming months if they are out after dark and to really take care when crossing the roads.

This is the last Headlands Headlines this half - term, thank you as always for your support over the last few weeks.

Mrs S Bone,
Executive Head

Sharing some Sad News

This week we learnt the sad news Mrs Syrett (Head of English) passed away following her battle against Cancer. Mrs Syrett will always be remembered here at Headlands School for her infectious laugh, her amazingly positive outlook on life, and for her sheer brilliance in the classroom.

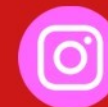

Having joined the profession as a Mature Student, Mrs Syrett enthused about her subject in all the work that she did, was always exceptionally organised and was deeply committed to her job and her students. Thank you to all the parents and carers who showed their support to her during her ill health and to all the students, past and present, who will ensure her memory lives on in the Headlands School community for years to come.

Cross Country

Tyler (Year 8) and
Oceane (Year 7)
completed the
Cleethorpes 2700m race
where Tyler placed 2nd
in the U13 Boys and
Oceane placed 3rd in the
U13 Girls.

Congratulations Tyler
and Oceane!

Restart a Heart Day 2024

On Wednesday, over 200 students took part in Restart a Heart. They were taught how and when to effectively deliver CPR along with seeing inspirational stories of how the skills they learned in the session have directly been used in real life to save lives.

We are very proud to support this activity each year.

Future Chef Competition

On Wednesday 16 October the Future Chef school heat took place in room 40 after school. The students worked really hard to make some fantastic dishes, well done to Imogen Marsh who made hunters chicken, vegetables and pasta, Jacob Emms who made a Greek pasta dish with a greek salad, Layla Hambleton who made chicken, pesto pasta, Maelys Price who made garlic and oregano chicken with green beans and sauteed potatoes and Jak stead who made barbeque chicken wings with wedges and homemade coleslaw.

It was a close contest, Jak and Maelys won and they will go forward to represent Headlands school at the local Future chef competition at Hull College before Christmas. Well done everyone! - Mrs Jones

PE Uniform Update

As the temperature drops please can all parents ensure that their child packs appropriate clothing for their outdoor PE lesson. This includes base layers, jogging bottoms/ leggings, and jumpers/ hoodies. PE kit does not have to have the school logo on but must be in the school colours which are red and black, small sports logos are permitted. Outdoor PE lessons will continue unless there is adverse weather conditions or the playing surface is judged to be a risk to the health and safety of the students.
