5pm - 7pm

Available to view  
8th - 10th July,  
11am - 3pm

## Message from Mrs Stamford

On Friday last week we held our Year 11 Prom. This was such a wonderful evening. The students looked beautifully stunning in their outfits! They enjoyed their own choice of pizza and chips from the takeaway before dancing the night away. A special mention must go to Harvey Jackson for some absolutely sensational dance moves! The night was brilliant and thank you to Mrs Douthwaite and Mrs Harvey for the stunning decor and thoughtful finishing touches to make the venue look exquisite!

This week we welcomed Jessica Grady to our School for an inspiring textiles workshop. It was a fantastic opportunity for our students who thoroughly embraced having Jessica's knowledge and expertise at hand for

their own creations.

Following on from this, the Creative Arts department also welcomed students from Quay Academy for their annual collaboration. This is building on the last two years of success where the work has been chosen for the National Gallery in London. Superb work between the schools!

This week our students have been volunteering down at South Cliff Beach at the International Volleyball Championships. Our students have been lucky enough to carry out several supportive roles to aid and assist the players. Some of our students were super efficient and were promoted including Addison Stamper and Elsie Wilde who caught the judges' eye and were promoted to official scorers. Both girls got to sit with an Olympic

adjudicator and assist with the scoring of the matches. What an absolutely amazing opportunity and experience for Addison and Elsie!

And finally this week, we have welcomed our Year 6s for their transition days into Secondary School. It has been wonderful to meet all of the new students and the photos on social media certainly suggest they have had a brilliant time settling in at their new school!

A reminder that school finishes on 18 July at 12:05pm. This day will be a non-uniform day.

Mrs Stamford

Head of School

## Textile Artist Visit

We were thrilled to welcome textile artist Jessica Grady to our School for an inspiring workshop with our A-Level Textiles students, current Year 10s, and those who will be taking GCSE Textiles this September.

Jessica shared her incredible expertise, guiding students through the creative process and offering valuable insights into the world of textile art. Her visit not only allowed students to develop their practical skills but also gave them a glimpse into potential careers in the textile industry, from design and production to sustainable practices. It was a fantastic opportunity for our students to explore the diverse paths they can take within the arts and beyond. Check out some of the wonderful moments captured during the workshop! - Mr Frankish

## Jazz Show!

### Mrs Bone's Newsflash

This week has been an incredibly busy one!

Amongst other things on Monday we heard from the Sea Cadets from Bridlington and Filey Branches about the exciting opportunities being a part of this organisation can bring. More information can be found here - <https://www.sea-cadets.org/bridlington>

Mr Woolley - Assistant Head - shared with students our revised Homework Policy which will be implemented in September during Assemblies. As a school we have invested in an online package called "Sparx" which is an excellent platform that provides personalised homework for students in Reading,

Maths and Science. More information can be found here -

Maths: [sparxmaths.com](https://www.sparxmaths.com)

Reading: [sparxreader.com](https://www.sparxreader.com)

Science: [sparxscience.com](https://www.sparxscience.com)

We have also had all Year 10 on Work Experience and welcomed 212 Year 6's to Headlands School on Thursday and Friday as part of their secondary school transition! Students from Quay Academy also visited Headlands at the start of the week for a STEM day and we had a Jazz Band perform on Wednesday during

music lessons! Then, we have also had Year 9 students helping out at the International Volleyball event down on the South Beach! What a week!

Tonight is our Annual Sports Awards Dinner - I am sure it will be a brilliant evening where we get to celebrate the brilliant sporting talent we have here at Headlands. A great way to end a very busy week for all.

Have a good weekend,

Mrs Bone

Executive Head

### PE Round Up

#### Gold School Games Mark

Each year we apply for the school games mark, a nationally recognised award which looks at the amount of students involved in physical activity both in lesson and in extra curricular. Thanks to the dedication of the PE staff and commitment of students, we have managed to get the gold award for the 4th year running.

#### Sports Awards Dinner

Over 110 students and staff will be at the Links Golf Club celebrating all the amazing sports we have done over the past year. Sports include gymnastics, netball, rounders, football, rugby, darts, badminton, swimming, sports leaders, pickleball, softball, basketball and cricket. Alongside these we have our Sportsman and Sportswoman of the year award too - keep an eye out on the Headlands Headlines next week for our winners.

The School Sports Partnership Awards - takes place on Tuesday at Longcroft school; watch this space for the results! - Mrs Houlton

#### Netball Trials

On Saturday 28 June, Daisy Driver, Olivia Formby and Tallulah Clifton all went to South Hunsley School for the Humberside Netball County trials. These were the first round of trials and they were up against 28 other players who were all put forward by club coaches. All three of the girls worked incredibly hard for the afternoon and put their all into it, their effort can't be faulted.

Out of the three girls, Daisy Driver was selected to go forward for the next round! She showed some amazing defensive skills for the entire team and didn't give up. Well done! - Miss Booth
