

Overview:

In year 9 students will bring together the skills from previous years to create a more sustained project. The project will allow them to choose from a large variety of media and materials in order to interpret the work of artists from different backgrounds, and art movements, to enhance their cultural learning.

ART & DESIGN

My Favourite Things

In this project students will be building on from the knowledge learnt in years 7 and 8 working from a still life of objects based on personal interests and "favourite things". The project will involve looking very closely at shape and form and developing **analytical drawing skills** and **understanding of composition**. The objects/still life will be explored from different viewpoints.

Students will be introduced to one or more different interpretations of objects/still life to examine style and technique. We will look at artists such as **Michael Craig-Martin, Lisa Milroy and Jim Dine**. Students will be encouraged to **experiment with media and scale** in developing your own interpretations of the still life. This will give students the opportunity to demonstrate, through extended **creative response**, their **ability to draw** together different
