

Geography Year Curriculum Plan (long term)

At Headlands School, British Values are embedded in the geography curriculum through topics on democracy, diversity, and global citizenship. Students explore cultural understanding, environmental responsibility, and the impact of decision-making locally and globally. Respect, tolerance, and individual liberty are promoted through discussions on global issues, migration, and sustainable development.

Year Group	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
7	Geographical Skills Unit	Geology	Changing World of Work	Coasts	Glaciation & Tourism	Weather and Climate
8	Energy Resources	Climate Change	Challenging Development Issues	Wild Weather	Africa and Middle East	Rural and Urban Landscapes in UK
